

Ledham Dec. 5. 1844.

Dear Mr. Chapman:

I shall not be in town
today so I send you in my letter
to Sydney to be delivered to Willard.
You may read it, if you choose, though
there is nothing new to you in it.
Be careful of the \$5. Please to send
Sydney's letter to me & make it up
with any other despatches you may
have for me, & send it at the office,
& send it by the Express. I hope you
received a letter from me for Caroline
yesterday. Did Deborah go or not?

I send in Sydney's last week's letter
to me wth. I believe you did not see.
I see he has some suggestions about
employing an agent to get subscribers
& accompanying the Lecturers, which he
wishes laid before the Board. Please
submit them to the Genl. Agent for his
advice.

123 I was asked on Monday in what

by a colored man to deliver ~~an~~
address before the N. E. Freedom
assoc.ⁿ & David I would, thinking
if I did n't they might let
Lewitt in Stratton. It has
since occurred to me that it
might be a sort of newspaper
affair put up by Tony & one
or two more. I don't know what
it is for ~~or~~ anything about it.
I rec^d. yesterday a letter from
Nell mapping arrangements. Will
sight out to have anything to
do with it, if it is not all right,
but it does not follow that he
would not. I have written to
him that I would have nothing
to do with it if it were at all
New York? or B. d. Party. Do you
know anything about it?

I am waiting anxiously for the
next Herald, what will settle

The position of Rogers remaining
usefully in the cause. My plans pre-
ponderate. I see that it was only
a fortnight before the Special
Meeting that French expressed his
determination to call up that business
before it reached by its decision.
It is some time that they have moved
out this strange story of the Herald,
belonging to the 14 Donors. It looks
bad - very bad.

Faithfully yours

Amos Quincy.

W^m Chapman.
